SELEMIX® PERFECT PAINTING PERFORMANCE

Agricultural, Construction and Earthmoving application

SELEMIX® PERFECT PAINTING PERFORMANCE FOR A.C.E APPLICATION

Selemix is PPG Industries' comprehensive industrial coatings system, suitable for all painting or surface protection in the Agricultural, Construction and Earthmoving marketplace.

A comprehensive range of products are available which are tried and trusted in the industry offering a highly robust, durable and fast drying finish in a wide range of colours and gloss levels to ensure consistency is achieved.

Selemix System offers a range of fast drying single-pack products, robust and durable two-pack products, and two-pack Direct to Metal solutions to help you save on process time. Selemix systems are also ISO 12944-6 Certified, providing the best possible assurance of corrosion protection.

The Selemix offer includes:

- **High gloss, fast drying one-pack synthetic solution:**
Selemix Synthetic Primer 7-810 & Selemix Synthetic Topcoat 7-610
- **Highly versatile, robust and durable two-pack solution:**
Selemix Epoxy Primer 7-413 & Selemix PU Topcoat 7-512
- **Fast one stage finish two-pack Direct solution:**
Unique topcoats can be applied directly to prepared metal surface. Available in 10, 30, 50, 70 and 80% gloss.

Selemix systems are supplied to many leading manufacturers and operators in the Agricultural, Construction and Earthmoving market.

Features	Benefits
Exceptional colour coverage and fast drying	Increase process efficiency and reduce product consumption
ISO 12944 certified product systems	Assurance of corrosion protection
Matched to international colour standards RAL, British Standard, Pantone, NCS	Assurance of colour consistency across the range

Selemix is available from a number of specialist Light Industrial Coatings distributors across UK and Ireland.
